

The Gimp

News

www.gimpfm.co.uk

This is the GimpFM newspaper, here at GimpFM we are committed to have the same amount of truth as other newspapers like the Sun, Star and of course the best of them all, the Sport.

Queen of the stoners

One of the sources for this newspaper is Barry's mum, she says "That I seen some wrinkly bird pulling off a cooper". Also Dave's granddad, the one with the gimpy eye stated "I thought she must have been smoking the way she like dressed like a nonce!"

We have decided that at 12:00pm on the 31st of February the Queen was pulled over in her Mini Metro, after the police stopped her for having a light out and a very dodgy tyre. When the police opened the door the queen looked at him and said "Well I like own you so fuck off you cunt of a pig your like well dead and this is a spilif am smoking and I like don't care as am the queen for fuck sake"

The police say "Would you fine your boss?, so we let her get away with it"

What next? the prince Phillip being a racist or a alcoholic in the maonarchy?

GimpFM win's another award!

Our sponsors of this most very truthful newspaper, have won yet another one of our awards, even though the radio station does not have any news programmes, it won "GimpFM newspapers' Best News Programme ever and ever" a spokes person from the radio station said "this is a great achievement for GimpFM, we are always happy to get awards from you. You can still have funding", so what next for this internet radio station? What award will we give them next?

Life after 10

The previous Prime Minister, Lord Tony Bliar now has a new job shovelling shit. He got the job after, going to job centre last Monday, the owner of 'Shits Be Gone' says "Its great to have him part of our team but if he starts war on any of them rats I'll say ho Tony, like Samdam, them rats have no weapons of mass-destruction, bitch". The owner then threw shit at us and asked us to leave as he did not like our photographers as he has only one leg.

Here's one I smoked earlier

The BBC flag ship programme Blue Peter had lots of problems after jipping their stupid little fans out of the name of a cat, but there are now facing there biggest scandal by trying to get down with the kids in the cool way not a pedo way. Some of the actions that have pissed the public off include, 'How to make a crack pipe', 'Top ten ways to get drink, tabs and bitches' and best of all '20 ways to suck your boyfriends willy'. When we told an old woman about this she sad "Oooooohhhh have you seen the price of bread in my day kids played with there own poo and molest cats" after the interview she died of a heart attack I blame Blue Peter.
